VIL UYANA

SIGIRIYA • SRI LANKA

Prestige Earned with Pride

Established in 2006, Jetwing Vil Uyana stands unique among the Jetwing family as one of the only properties that is built on a fully functioning man-made eco reserve inspired by London Wetland Center. The resort is a winner of multiple international accolades for sustainable initiatives and takes great pride in being a property that is dedicated towards the conservation of Sri Lanka's flora and fauna.

Tranquility at Twilight

Celebrated as one of Sri Lanka's must visit eco luxury resorts, Jetwing Vil Uyana merges the tranquil calm of its surroundings with subtle hints of modern hospitality and the trimmings that accompany it. A flagship in the architectural portfolio of renowned environmental designer Sunela Jayawardane, the property stretches out and merges with nature, making it the perfect woodland getaway.

Witness the Splendour of Lion Rock

Rising above the shadow of an ancient kingdom, and declared an official UNESCO World Heritage site, Lion Rock has stood the test of time and possesses an air of sacred reverence. You can't help but wonder if King Kasyapa was pampered as much as you are about to be.

A Taste for the Natural Side of Life

What's your pleasure? Depending on the kind of experience you wish to have, you get to choose from five uniquely themed dwellings i.e garden, paddy, marsh, water and forest. Each offers something special to add to your adventure.

Nature's Rarer Treats

Wide eyed and curious as they come, the Loris is a frequent highlight for nature lovers who like to spot one of the more elusive patrons of the area. Claiming the title of being the Smallest Recorded Primate in Sri Lanka, the Loris lives a life of comfort and security as Jetwing Vil Uyana is known as the only Loris conservation site in South Asia. Other rare creatures that you could spot include the enigmatic Fishing Cat, Eurasian Otter, Mouse Deer and on it goes.

Experience the Gathering

Join in a safari to the Minneriya National Park and witness the annual Elephant Gathering. Be sure to have your cameras ready as these giant beasts amble along casually, through the emerald green plains of grass and if you're very lucky, you might get to spot a baby elephant or two!
