

ENVIRONMENT POLICY

Respect for the environment and a commitment to the principles of sustainable environmental management are among our guiding principles. Thus, Jetwing Hotels take all possible steps to protect and maintain a clean & healthy environment.

We are committed to:

- Conserving our natural resources by minimising our negative impacts through the implementation of routine actions and by sustainable management, as well as through education;
- Wherever possible, protecting the environment and enhancing all ecosystems;
- Continual improvement of the environmental management system to enhance environment performance by means of minimising environment aspects;
- Conserving energy and water;
- Preventing pollution and minimising use of harmful substances;
- Reducing, reusing and recycling waste;
- Making all efforts to mitigate and adapt to climate change;
- Complying with relevant environmental legislation & regulations and compliance obligations;
- Employing local people whenever possible, and purchasing local products & services where possible and feasible;
- Always seeking to achieve a safe and sustainable environment for our community, future generations and ourselves.

This policy will be reviewed and updated annually and will be communicated to all levels within the organization.
