

ENVIRONMENT POLICY

Respect for the environment and a commitment to the principles of sustainable environmental management are among our guiding principles. Thus, Jetwing Hotels take all possible steps to protect and maintain a clean & healthy environment.

We are committed to:

- Conserving our natural resources by minimising our negative impacts through implementation of routine actions and by sustainable management, as well as through education.
- Continual improvement of the environmental management system to enhance environmental performance by means of minimising environmental impacts.
- Protecting the environment and where possible enhancing all ecosystems.
- Conserving energy and water.
- Preventing pollution and minimising use of harmful substances.
- Reducing, reusing, and recycling waste.
- Making all efforts to mitigate and adapt to climate change.
- Complying with relevant environmental legislation & regulations and compliance obligations.
- Employing local people whenever possible and purchasing local products & services where possible and feasible.
- Always seeking to achieve a safe and sustainable environment for our community, future generations, and ourselves.

This policy will be reviewed annually and updated as appropriate; and will be communicated to all levels within the organisation and relevant external parties.
